EDUCATION

The Ohio State University, College of Engineering

B.S in Computer Science and Engineering (AI Specialization), Minor in Mathematics

Columbus, Ohio

Expected May 2027

GPA: 3.82

- Dean's List (all semesters), Trustees Scholarship

- Code4Community, AI Club

- Relevant Coursework: Data Structures and Algorithms 1 and 2, Object Oriented Programming 1 and 2 (Java), Computer Architecture, Web Apps (JavaScript), Operating Systems, Discrete Math, Linear Algebra, Engineering Stats, AI

WORK EXPERIENCE

Software Engineer Intern

June 2026-August 2026

Fidelity Investments

- Automated a manual internal workflow, cutting processing time by **89%** (18 min → 2 min) across **~50 daily runs** by engineering and deploying an autonomous AI agent on an internal LLM platform
- Eliminated **~100 lines** of redundant code across 2 enterprise application forms by architecting a unified, config-driven JavaScript engine in place of fragmented one-off scripts
- Cut task completion time **~25-30%** and clicks by a third for **300+ daily users** by redesigning the UI and data model of 2 internal enterprise applications

AI/ML Research Assistant

August 2026-Present

Kumar Lab | The Ohio State University

Columbus, Ohio

- Improving rare medical case retrieval accuracy by **~21%** by prototyping a **multi-vector retrieval pipeline** benchmarked against OGCReBench, using PubMedBERT embeddings and **FAISS**

Lead Developer

November 2025-Present

Columbus/Central Ohio Colleges Agency (CCOCA)

Columbus, Ohio

- Improving digital outreach and accessibility across Central Ohio through directing a **~20-member** development team to deliver full-stack (**React, Node.js, SQL**) web platforms for **10+** nonprofit clients
- Streamlining project workflows and keeping delivery aligned with each client's mission and impact goals by serving as primary liaison between nonprofit clients and developers

Software Engineer Intern

May 2024-August 2024, May 2025-August 2025

JCL Equipment Co.

Xenia, Ohio

- Boosted database efficiency by **30%** by profiling and refactoring **SQL** queries for faster data retrieval
- Saved **10+ hours per week** through a custom **Python** script that automated manual transaction logging

PROJECTS

GraspIQ | [Demo](#) — Next.js, TypeScript, React, Node.js, PostgreSQL, Docker, Claude API

May 2026–September 2026

- Reached **25+ users** across Canvas-hosted colleges within **2 weeks** of launch by developing a **full-stack AI** study assistant integrated into Canvas LMS using **Next.js, TypeScript**, and a **Manifest V3 Chrome extension (React, Tailwind CSS)** with **7 specialized skills (Next.js, React, TypeScript)**
- Supported **100+** concurrent AI tool-use sessions by architecting a **Dockerized multi-service backend** exposing a **custom MCP server**, verified with Claude Desktop
- Achieved **~90%** grounded-answer accuracy across **500+** documents via a **retrieval-augmented course Q&A** system using **OpenAI embeddings** and a **pgvector-backed PostgreSQL database**

JCL Equipment Website | [Demo](#) — HTML/CSS, JavaScript, Node.js, SQL

May 2025–June 2025

- Constructed a **30+ page full-stack** website with **HTML, CSS**, and **JavaScript** frontend to give the company a professional online presence and boost online engagement by **40%**
- Devised a self-service content management tool enabling non-technical staff to update site inventory via a **Node.js + SQL** backend

SKILLS

Languages | Python, Go, JavaScript, TypeScript, Java, C/C++, C#, SQL, HTML/CSS, Assembly

Frameworks, Databases & Cloud | React, Node.js, Express.js, Docker, GitHub, Git, REST API, AWS, PostgreSQL

ML/AI & Data Tools | Claude API, RAG, FAISS, pgvector, PyTorch, Scikit-learn, OpenCV, Pandas
